

March 25, 2020

The supply of facemasks and eye protection at medical facilities throughout the country is at crisis levels. In response, the [Leading Builders of America](#) has launched an industry-wide national campaign to immediately identify and redirect all available facemasks and eye protection for medical use. While N95 masks and full-face shields are preferred, dust masks and safety glasses are also needed. If you have extra equipment, please drop off your donations at the metro Atlanta locations listed below. If you work with trade partners that use this equipment, please encourage them to donate any surplus supplies. The goal is to deliver thousands of pieces of equipment over the coming weeks. Please spread the word.

**We need your help. #BuildersCare** **LEADING BUILDERS of AMERICA**

The Leading Builders of America is responding to the critical national shortage of protective masks and eye protection for health care workers across the country. Due to the shortages of personal protective equipment (PPE) across the nation, we have been asked to campaign for the collection of protective eyewear and masks (both n95 and dust masks). We will have a list of donation sites posted on our social media profiles and website shortly.

**How can you help?**

- Follow our social media accounts  
 @LBofA @LB\_of\_A /LBofA
- Share our call to action posts with your individual networks
- Post a photo dropping off your PPE donations at one of our collection sites using the hashtag #BuildersCare

**What can you donate?**

Protective Eyewear  
Masks (n95 and dust masks)

At this time, we are focusing on protective eyewear and mask donations.

This an opportunity to help hospitals across the nation that are in desperate need of supplies, and show our nation that when they need help #BuildersCare and our industry will be there to support our communities any way we can.
